

# The SASE Leader.

CASB, SWG, and ZTNA built natively in a single platform.

## The Security Platform of the Cloud-Centric Future

Netskope safely and quickly connects users directly to the internet, any application, and their infrastructure from any device, on or off the network. With CASB, SWG, and ZTNA built natively in a single platform, the Netskope Security Cloud provides the most granular context, via patented technology, to enable conditional access and user awareness while enforcing zero trust principles across data protection and threat prevention everywhere. Unlike others who force tradeoffs between security and networking, Netskope's global security private cloud provides full compute capabilities at the edge.

**Netskope is fast everywhere, data centric, and cloud smart, all while enabling good digital citizenship and providing a lower total-cost-of-ownership.**

## Netskope protects over 30 of the Fortune 100

3 of the world's  
6 largest airlines

3 of the world's  
4 largest  
commercial banks

5 of the world's  
7 largest healthcare  
providers

2 of the world's  
3 largest  
telecommunications  
companies

“Netskope was critical in safely enabling our global Office 365 deployment.”

### NETSKOPE IS BUILT FOR PERFORMANCE AND SCALE

The Netskope Security Cloud is the fast and secure onramp for more than 230 million users around the globe. Netskope processes more than 50 billion cloud and web transactions a day and scans more than 60 million files.

### NETSKOPE IS AWARD WINNING

Netskope is regularly called out for our product innovation, contributions of our leaders and customers, and company culture. We are also active contributors to the cloud security industry as a whole. Here are some of our recent achievements and industry affiliations.

#### INDUSTRY RECOGNITION

## 2020 Gartner Magic Quadrant Report for SWG and CASB

Netskope named a **VISIONARY** for SWG and a **LEADER** for CASB

#### PEER RECOGNITION

## Netskope named a 2021 GARTNER PEER INSIGHTS CUSTOMERS' CHOICE

for Secure Web Gateway and Cloud Access Security Broker.

### OUR TEAM IS A COMPETITIVE ADVANTAGE

Netskope was founded by early architects and distinguished engineers from security and networking leaders like Palo Alto Networks, Juniper Networks, Cisco, and VMware. As we've grown, our hiring philosophy has stayed the same. Hire people who are better than you, then empower them. Let them do what they know they can do. Let them be entrepreneurs. Give them the freedom to unlock their capabilities. This is how you build great products. This is how you build a great company. And this is how we have built Netskope.

Netskope, the SASE leader, safely and quickly connects users directly to the internet, any application, and their infrastructure from any device, on or off the network. With CASB, SWG, and ZTNA built natively in a single platform, Netskope is fast everywhere, data centric, and cloud smart, all while enabling good digital citizenship and providing a lower total-cost-of-ownership.
